

Petition to Stop Maximus Real Estate Partners' 10-Story Development at 16th and Mission

We, the undersigned, demand:

- that Maximus Real Estate Partners abandon their current project at 1979 Mission.
- that the planning commission and the City of San Francisco reject all market rate housing developments in the Mission until housing needs for the poor and working class are fully met. Additionally, we demand that the San Francisco Planning Department abide by the community planning and land-use process outlined in the Plan Popular*, specifically the guidelines outlining community planning for "people not profit," for any future developments.
- that the owning partners of 1979 Mission (Maximus Real Estate Partners and the Jang Family Trust) transfer the land to community hands.
- a stop to the harassment and criminalizing of low-income people and people of color that use the Plaza as public space by the SFPD under the guise of "cleaning up the plaza."
